

# MJ 1 Math Textbook Skills & Resources

## Chapter Activities & Extra Help

This page features skills that are being covered currently or have been in the past. Each skill has a reteach page with the process; practice and additional practice pages with problems to review the skill; an application page with problems as applied to life or word problems; and a quiz to practice at home with self-grading. If ever your student is out, needs extra practice or does not know what the homework assignment is, feel free to use these resources.
